Subject: Libby, Montana
Asbestos Removal Project
Screening Plant Site
Archaeological Investigation Report

Dear Mr. Peronard:

John McGuiggin asked me to provide you with a copy of the following DRAFT document:

The Rainy Creek Site (24LN1045) Data and Significant Information Recovery Report as Part of the Screening Plant Removal Action, Libby, Montana, Asbestos Emergency Response Project - U.S. Environmental Protection Agency Region 8. Edited by Stephen A. Aaberg. April 2002.

Also enclosed is a summary of and excerpts from the draft report and CDM Federal Programs Corporation's (CDM) review comments which we provided to the Volpe Center recently. The appendices have not been reviewed.

The artifacts recovered from the Parker property and the KDC Flyway property are being held by our archaeological subcontractor pending authorization to deliver them to Mel and Lerah Parker and Allen Stringer of W.R. Grace, respectively. A faunal analysis of the artifacts was not performed.

Mr. Paul Peronard

Once you have completed your review of this draft, please contact me at 617-452-6270, John McGuiggin at 617-494-2574, or Tim Wall at 617-452-6257, to discuss your comments so that we can have our archaeological subcontractor finalize the report.

Very truly yours,

A handwritten signature in black ink that reads 'Peter J. Borowiec, Jr.' The signature is fluid and cursive, with a large initial 'P' and a trailing flourish.

Peter J. Borowiec, Jr., P.E.
Task Manager
